T. Andreasen, MD

Residents of the Loma Linda University Department of Plastic Surgery named **Troy J. Andreasen, MD**, whose practice is in Ontario, CA, its "Clinician of the Year," recognizing him among his peers for his dedication, qualifications and skills. 909-291-4900, www.inlanobreastandbody.com

RECOGNITION

The San Diego County Medical Society selected Nasrin Mani, MD, as one of "San Diego's Physicians of Exceptional Excellence." As part of the recognition, Mani, whose **La Jolla Cosmetic Laser Clinic** is in La Jolla, CA, will be included on the "2010 Top Doctors" list published annually in *San Diego Magazine*. 800-615-7753, www.lajollalaser.com

The Stem Cell Lift is a new procedure from Nathan Newman, MD, that uses a patient's own stem cells to enrich fat to help eliminate scars. The procedure, available at **Nathan Newman, MD, Advanced Cosmetic Surgery** in Beverly Hills, CA, can repair surgical scars, facial dents and lopsidedness on the face and body. 310-273-3344, www.nathannewmanmd.com

The New York Center for Facial Plastic and Laser Surgery's Andrew Jacono, MD, FACS, of Manhattan and Great Neck, NY, debuted his

new Future Lift procedure. The Future Lift is a hybrid technique combining short-incision mini face lifts with deep-plane face lifts to help yield a natural-looking result with minimal scarring and a shorter recovery time, typically 7 to 10 days. 516-773-4646, 212-570-2500; www.newyorkfacialplasticsurgery.com

PROCEDURES

Miami Center for Dermatology is developing a teledermatology system using Virtual Skin Doctor. The system allows the practice to provide its services on Carnival Cruise lines, offering diagnoses and treatment of skin conditions to crew members in conjunction with the ships' physicians. Also, through a partnership with Amerimed, the practice can offer services to Mexican cities such as Cabo San Lucas. 305-279-7546, www.miamicenterfordermatology.com

Todd Malan, MD, of **Innovative Cosmetic Surgery Center** in Scottsdale, AZ, developed Beautifill X, a noninvasive

procedure using fat from the hips and thighs to fill in the breasts. The hip and thigh fat is removed and mixed with adult stem cells to increase the life of the fat transfer, and the mixture is then injected into the breasts. 866-985-7999, www.innovativecosmeticsurgery.com

D. Nguyen, MD

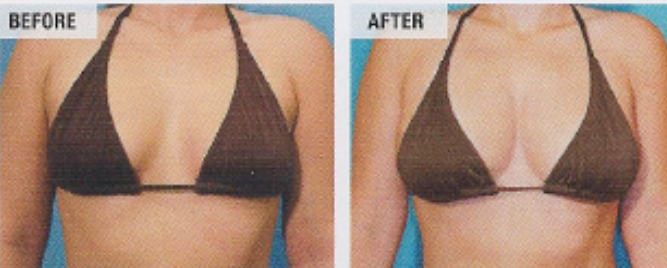

Beverly Hills, CA, and reconstructive **Davis B. Nguyen, MD**, concierge services to serve patients' health care and to include unlimited appointments, 24-hour phone access and as an array of facial cosmetic procedure and invasive treatments. 310-550-0288, www.davisnguyenmd.com
